Memory Game Instructions

1. Print a copy of page one for each of your shower guests.
 1. Print a copy of page one, the blank list, for each of your shower guests.
2. Gather 40 or so small items from around the kitchen and place them on a large tray.
 2. Before the shower starts, gather 40 or so small items from around the kitchen and place them on a large serving tray or baking pan with low sides. Examples include kitchen gadgets, silverware, measuring cups, matches, a teabag, anything small that you can pull together and arrange on a tray.
3. Cover the tray with a dish towel and set it aside until the game time.

Game rules:

1. Give everyone a pen and copy of the blank list page, but have them face down.
2. Bring out the tray of items and place it somewhere where everyone in the group can gather around to see it. Then give them one minute to look at everything on the tray.
3. After a minute, cover the tray and remove it.
4. Set a timer for 3-5 minutes and instruct guests to turn over their papers and list as many items as they can remember from the tray that you took away.
5. After time expires, bring the tray back in and show them item by item. Guests will check the ones they got right. The person with the most correct items listed is the winner.
